25X1

1. The Baku-Kishly ($40^{\circ}37'N/49^{\circ}35'E$) airfield, Azerbaijan SSR, was a military field.
2. Three repair hangars, each 10×30 x about 60 to 75 meters, with arched roofs, a concrete apron in front of the hangars, a garage about $4 \times 15 \times 50$ meters, and a three-story flight control building with a tower and a wind sock were on the edge of the field.
3. Only the section around the repair hangars could be seen. There were aircraft of different types which were in need of repair.
4. Single-engine fighters with in-line engines and landing gear retracting inward were often seen over the field or its vicinity. They were called Yak-7s
